The translator did a great job in communicating the highly poetic original Russian text into poetry in prose in the the English version. Bravo! Very moving and inspirational! Thank you.

The Singing Heart: A Book of Quiet Reflections is a collection of reflections on human nature and morality; the beauty of nature and its relationship with man as created being and God as creator; man's duties, responsibilities, and destiny in life; and the interplay of heart, mind, and soul. These reflections from a "singing heart" are beautifully written in a language steeped in love for Russia and the Orthodox faith and provide a glimpse into the soul of a man who refused to be beaten by the cruelty of his time but found beauty in the darkest of days.
